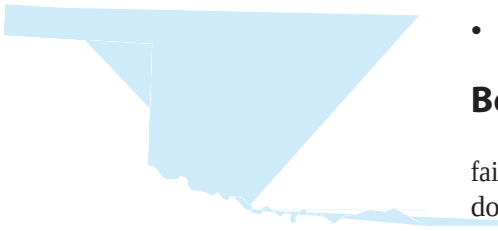
Watershed Operations

October 2009

Upper Muddy Boggy Creek Watershed, Dam No. 18, Oklahoma

Introduction

e Upper Muddy Boggy Creek Watershed is located in Coal, Hughes, Pittsburg, and Pontotoc Counties. is watershed repair project will create or save jobs during the construction period. is project will repair several areas of erosion on the front and back slopes of the dam.



Upper Muddy Boggy Creek Watershed Dam No. 18 is located in Coal County, Oklahoma.

Project Description

- **Location:** Coal County, 2nd Congressional District
- **Federal Funding:** $45,000

Unstable soil has caused erosion creating large gullies in the slopes on the front and back sides of this dam. Left untreated, these gullies could cause the dam to fail. Clay in these slopes will be reinforced with gypsum in order to eliminate erosion.

Partners

- USDA, Natural Resources Conservation Service
- Coal County Conservation District
- Oklahoma Conservation Commission

Benefits

is project will avoid more costly repairs in the future and prevent a dam failure. A dam failure would have catastropic impact on water quality and downstream infrastructure. is project will ensure that $9,717 in average annual flood damage reduction benefits will continue into the future.

Unstable soil has caused erosion on both the front and back slopes of the dam.
